I was amazed how much I learned about driving, about awareness, relaxation, control, controlling other drivers, about exterior architecture to recognise round-road features ahead.

I felt much more in control of my car and driving

A very worthwhile lesson.

My initial idea of the course was that it would be a mini-driving test. However, Steve gave me the knowledge & ability to approach every situation with a clearer picture in mind & to be able to identify danger areas better.

I am sure the course will one day prevent me having or causing an accident. Well worth the time spent & highly recommended.

Driving training course.

I found the course very instructive and informative,
and would recommend that all should attend.

The ability of my driving I'm sure will improve
having learnt new skills and the ability to read
the road ahead making me a safer driver.

Excellent guidance with positivity.

With Many Thanks

Well worth the days training. Heightened awareness
of the road condition we experience everyday.
After passing my driving test 22 years ago, it has
acted as a good refresher.

This was a very informative course which made me reconsider some of my driving habits. Steve was very knowledgeable of the subject and combined excellent training documentation with practical experience.

Driver Instruction

The course today was informative, interesting and at times entertaining. There were many useful snippets that together make a significant contribution to my knowledge base for safer driving.

In particular, Steve, you have taught me to be in control of my situation on the road and made me comfortable w leaving room to deal with situations as they arise (if not before)

Re: Driver Training - Steve Redman

Useful day: lots of pointers as to hazards, and how to plan to keep out of trouble. Easy-going approach, but always coming up with signs of poss dangers ahead.
